EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below.

IN THE CLAIMS:

1. In claim 1, line 11 after the reaction medium ",", is deleted, line 12 "and" is deleted and --- is inserted therefore.
2. In claim 2, line 4 at the end of the sentence ---is inserted
3. In claim 4, line 2 "claim 3" has been deleted.

IN THE SPECIFICATION:

4. On page 4, line 1 a heading entitled " Brief Description of Drawings" is inserted.

Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Millen on 10/18/2004.

The following is an examiner's statement of reasons for allowance: US patent 2,500,519 discloses a process for preparing hydrocarbon in a fluidized bed and circulating a coolant in a heat exchanger internal to the reaction zone. US patent 2,500,519 neither teaches nor suggests feeding a boilable coolant into the heat exchange zone at a temperature close to the boiling point of the coolant and the pressure of the coolant would be the same as the pressure of the reaction medium, said boiling point being in a range of 10 to 70 °C below the temperature of the reaction

medium. Nor would it have been obvious to modify the temperature and pressure of the coolant to arrive at the instant claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jafar Parsa whose telephone number is (571)272-0643. The examiner can normally be reached on 8 a.m.-4:30 p.m. (M-F).
